Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Everyone keeps raising taxes, fuel oil and gas, food, phone costs, electricity, interest rates, etc. But no one raises the minimum wage. When is it all going to end? Maybe people could afford to live if they could make more money in their pay. But as long as the politicians and government and the big companys keep getting richer. Who cares about the small people who keep the world turning.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Kathy Parmeter
